## **Resolution to Stop the Genocide in Palestine**

**Whereas** the Zionist State of Israel serves as a garrison state/colony within the larger U.S./NATO-based strategy of global imperialist domination and

**Whereas** the ongoing Nakba or catastrophe against the Palestinian people resulted in numerous massacres; the destruction of some 400 villages; and the creation of 750,000 refugees relegated to Gaza, the West Bank, East Jerusalem, and a global diaspora, and

**Whereas** the breakout of Hamas from the prison-like conditions of Gaza on October 7, 2023, showed the inability of the Zionist state to preclude Palestinian resistance, and

**Whereas** the Canadian government has been complicit in Israel's genocide against the Palestinians

**Therefore, be it resolved that Section 4.1 (f) be deleted and replaced with:**

NDP demand the termination of Canada's role as an accomplice of Palestinian Genocide and insist on the immediate implementation of the following measures:

- Comprehensive two-way Arms Embargo on Israel
- Domestic Legal Accountability and enforcement of Economic Mechanisms against Zionist and Western Colonial-Settler Occupation
- International Diplomatic and Legal Measures to Condemn and Isolate Israel/USA for crimes against humanity
- Material Support for Palestinian Liberation, including the right to armed resistance, self-determination, liberation, and the return of refugees, from the River to the Sea.
